Message from the Dean

Dear Nursing Student:

Welcome to the College of Nursing and Health Sciences (CONHS) at Auburn University Montgomery (AUM). We are delighted that you have chosen to pursue your degree at AUM! Our nursing program has a rich history of excellence in nursing education. Over the years, we have developed new program options to increase access to education, and we are committed to helping you achieve your educational goals. The university core values of a student centered experience, citizenship and community, standard of excellence, commitment to constant improvement, diversity of people and perspective with a culture of inclusiveness, promotion of lifelong learning and an environment of collaboration are embraced by the faculty and guide our efforts in working with you in your educational endeavors.

This handbook will serve as a useful guide and resource during your nursing education at AUM. It is important that you review the policies and procedures included as they relate to many aspects of your educational experiences at AUM on a regular basis. Policies and procedures that are altered during the year will be communicated to you electronically. A copy of the Student Handbook with up-to-date information is always available on the CONHS website.

On behalf of the college, its faculty and staff, please accept our best wishes for a successful year. Sincerely,

Jean D’Meza Leuner, PhD, RN, CNE, FAAN Professor and Dean
AUM College of Nursing and Health Science
AUBURN UNIVERSITY AT MONTGOMERY SCHOOL OF NURSING

MISSION
The School of Nursing supports the mission of Auburn University at Montgomery to provide quality and diverse educational opportunities at the undergraduate and graduate levels. Faculty are committed to providing a scientifically, evidenced-based nursing education in an interprofessional environment. Graduates will be prepared to provide excellent nursing practice through life-long learning, leadership, service, scholarship, and outreach for a global society.

VISION
To have national recognition for providing excellence in nursing education, scholarship, and practice through innovative programs that are responsive to current and emerging healthcare needs.

VALUES
1. A Student Centered experience
2. Citizenship and Community
3. A Standard of Excellence
4. Commitment to Constant Improvement
5. Diversity of People and Perspective with a Culture of Inclusiveness
6. Promotion of Lifelong Learning
7. An Environment of Collaboration

HISTORY OF AUBURN UNIVERSITY AT MONTGOMERY
Auburn University at Montgomery (AUM) is the metropolitan campus for Auburn University and was established by an act of the Alabama Legislature in 1967. AUM began its operation in 1968 at a downtown facility, moving in 1971 to its current 500-acre campus seven miles east of downtown Montgomery. AUM is a state assisted, coeducational institution, granting baccalaureate and master’s degrees with a student enrollment of over 5000. In 1973 the Southern Association of Colleges and Schools accredited AUM with subsequent reaffirmation in 1978, 1988, 1998, and most recently in 2008. AUM will be up for reaffirmation in 2018.

AUM offers highly respected, accredited academic programs in a challenging environment that blends the traditional views of the University as a community of scholars with the contemporary view of the University as an integral part of the surrounding community, state, and region. AUM provides academic programs that are characteristic of the finest traditions of scholarship and consistent with the responsibility to provide support for the functions of government, regional economic growth, and cultural enrichment through the arts. Rural counties in central Alabama are greatly impacted by the educational opportunities offered at AUM.

ACCREDITATION
The School of Nursing Undergraduate Baccalaureate and Master’s Programs are accredited by:

Commission on Collegiate Nursing Education (CCNE)
One Dupont Circle N.W.
Suite 530
Washington, DC 20036-1120
Telephone: 202-887-6791
Internet: www.aacn.nche.edu/accreditation

The Baccalaureate Program is also approved by the:
Alabama Board of Nursing (ABN)
RSA Plaza, Suite 250
770 Washington Avenue
Montgomery, AL 36104
Telephone: 334-293-5201
Internet: www.abn.alabama.gov

ACADEMIC PROGRAMS

BACCALAUREATE PROGRAM IN NURSING

After completion of the undergraduate program requirements, a BSN degree is awarded which is the foundation for professional nursing practice. A graduate of the BSN program is prepared to provide holistic care in a variety of settings. The program includes experiences in clinical nursing practice in various settings and across continuum of care, health promotion and maintenance opportunities with diverse populations, and preparation for leadership roles. The baccalaureate curriculum provides a solid basis for the pursuit of graduate study.

PROGRAM OUTCOMES

The BSN graduate is able to:

1. Collaborate with individuals, their support systems, and interprofessional team members by using communication and teaching principles and information technologies.
   
   Examples of behaviors:
   - Effective verbal, non-verbal, and written communication
   - Therapeutic communication
   - Patient-centered teaching
   - Conflict resolution/management
   - Appropriate application of technology in communication
   - Using best practice to inform patient-centered care

2. Demonstrate clinical judgment based on caring, clinical reasoning, best evidence for practice and professional ethics.
   
   Examples of behaviors:
   - Employs processes of inquiry, analysis and application in interprofessional problem solving and patient-centered care
   - Demonstrates ethics and caring in clinical judgment
   - Applies evidence-based knowledge in clinical practice
   - Application of culturally sensitive evidence based knowledge in clinical practice

3. Identify issues, integrate and disseminate evidence and evaluate outcomes for continuous quality improvement.
   
   Examples of behaviors:
   - Fosters patient-centered care that utilizes technology and research with clinical expertise and patient values
   - Integrates evidence to inform practice, make clinical judgments
   - Uses legal and ethical precepts to safeguard the rights of patients
   - Ability to utilize data and web sources

4. Use clinical judgment to implement safe, effective, efficient patient-centered professional nursing care emphasizing health promotion and disease prevention and management.
   
   Examples of behaviors:
   - Focuses on health promotion, disease prevention, early diagnosis, disease management, and supportive care throughout the lifespan to maximize health at the individual, family and population levels
   - Prioritizes interventions to prevent escalation of diseases
   - Includes groups, communities, or populations as units of care
   - Anticipate and minimize health consequences of emergencies and disasters

5. Provides patient-centered care as influenced by age gender, ethnicity, nationality, disability, sexuality, sexual orientation, religious and spiritual beliefs, political beliefs, economic status, native language, education, and geographical background.
   
   Examples of behaviors:
   - Demonstrates a wide range of knowledge, skills and attitudes including cultural awareness, humility, sensitivity, caring, and competency
   - Demonstrates an awareness of the unity of body, mind, and spirit, as well as one’s own thoughts, feelings and values in cultivating an appreciation for diversity

6. Demonstrate an understanding of the ambiguity and unpredictability of the complex factors such as local, state, national, and global trends that affect coordination and management of care.
   
   Examples of behaviors:
   - Includes ethical and critical decision making, mutually respectful communication and collaboration, care coordination, delegation, team building and conflict resolution
   - Demonstrates awareness of complex systems and the impact of power, politics, policy, and regulatory guidelines on these systems
   - Applies quality improvement concepts to minimize risk of harm to patients and providers within a systems Framework
PROGRAM POLICIES

Admission for Pre-licensure Baccalaureate Program

Refer to the current AUM Undergraduate catalog for admission requirements. The baccalaureate programs are competitive with limited access for admission. The Admission, Progression and Graduation (APG) committee reviews application files.

Selection for admission to the Upper Division of the School of Nursing is based on academic performance in Prenursing Lower Division required courses, an interview, a Test of Essential Academic Skills (TEAS) score and the percentage of Prenursing credit completed at AUM. Applicants must:

- Achieve full admission to Auburn University at Montgomery and to the prenursing major. Students on Academic Probation or Suspension and students with provisional university admission cannot be considered for admission to the Nursing program.
- Have a minimum 2.5 GPA (unadjusted and without rounding) based on prenursing coursework at the time of application.
- Have no more than 22 hours for full admission and 18 hours for spring admission (see advisor for specific details for individual requirements) of remaining prenursing coursework.
- Have successfully completed (grades of “C” or above) at least 3 of the required 5 lab science courses. A student who has earned two (2) grades below a “C” in Anatomy and Physiology I or Anatomy and Physiology II is not eligible to declare or to remain in the prenursing major and is not eligible to apply to the upper division of the nursing program at AUM.
- Have successfully completed (grades of “C” or above) Anatomy and Physiology I and II and labs within 5 years of nursing entry, or a retake of one is required.
- Have successfully completed (grade of “C” or above) at least one of the required prenursing math courses.
- Submission of Test of Essential Academic Skills (TEAS) score. A score of 73% or higher is preferred. Students with an ACT score of 23 or higher on file in the AUM Registrar’s office are exempt.
- Attend an interview with nursing faculty and leaders from the local community.
- Possess the functional ability to perform the skills and behaviors required of a professional nurse as listed in the current University Catalog, and in the Prenursing Student Handbook (Both may be viewed on the AUM website, www.aum.edu.)
- Undergo and pass a drug screening. Students who do not pass the drug screen will not be admitted.
- Undergo and pass a background check. Students who do not pass the criminal background check will not be admitted.

Meeting above requirements does not guarantee acceptance. Because the number of students who can be admitted to Upper Division is determined by the availability of faculty and clinical practice sites, a School of Nursing committee selects a limited number of the most qualified applicants to progress to the interview phase of the application process. Applicants will be notified whether or not they have been selected to interview by e-mail. Those interviewed will be notified regarding their admission status by mail.

Admission to Post-licensure Baccalaureate Program

The Educational Advancement for Registered Nurses (EARN) program is designed for registered nurses with an Associate Degree and/or diploma in nursing who desire to return to school to obtain a baccalaureate degree in nursing. Refer to the current AUM Undergraduate catalog for admission requirements. Upper Division nursing courses build on Lower Division curriculum. These requirements consist of courses in the humanities and biophysical and behavioral sciences. Applicants must:

- Select a part-time or full-time option.
- Select a semester for application to Upper Division nursing courses.
- Have a minimum 2.5 GPA and transcripts of graduation from an accredited 2-year nursing program.
- Have successfully completed all pre-nursing courses with a minimum grade of “C”.
  - Transfer credit will not be granted for courses in which a grade of “D” or “F” was earned. A maximum of 37 appropriate semester hours of transfer credit will be awarded after successful completion (minimum grade of “C”) of NURS 4110.
  - Advanced placement or CLEP credit in pre-nursing courses is granted according to university policies.
- Present evidence of current unencumbered RN license in their current State of practice.
HEALTH REQUIREMENTS

Student health requirements are intended to protect the health of students and patients for whom they will be caring. A copy of the Annual Health Assessment Form can be found in the forms section. All requested documentation must be entered into CastleBranch by the due date. The health requirements for all nursing students are as follows:

- A physical exam for pre-licensure students prior to entering Upper Division courses. This examination must be performed and dated between the dates of June 1 and August 1 for Fall admission and November 1 and January 10 for Spring admission of the year the student plans to enroll in Upper Division nursing courses and must be provided or approved by the AUM Student Health Center. Appointments for physicals can be made at the Student Health Center by calling 334-244-3281 from 8:15 am to 4:30 pm, Monday through Friday.
- Post-licensure students (EARN) are required to have a physical examination within 6 months of the term for which they plan to enroll in the program.
- A completed Tetanus-Diphtheria series with booster every 10 years. At least one booster should be the TDaP (tetanus, diphtheria, pertussis) unless contraindicated.
- Two doses of MMR vaccine (measles, mumps, rubella) or proof of immunity by titer >1:8i unless born before 1957.
- Tuberculosis skin test through the appropriate method unless previous positive test then must have a chest x-ray for clearance. Previous history of TB and completion of treatment must complete a yearly status report as recommended by the Centers for Disease Control (available in Student Health Center).
- Record of childhood immunization and provide documentation or appropriate titer levels to prove immunity.
- Annual influenza vaccination given between October and March.
- Hepatitis B vaccine series or documentation of completed series. If documentation not available, proof of immunity through titer level is appropriate.

Documentation

In order to meet the requirements of the various clinical agencies used for required clinical experiences to protect students and patients from potential hazards, the following requirements must be met before the first day of class every semester that includes clinical experiences.

Please refer to the checklist to ensure you have completed all the requirements prior to the first day of class. Please notify the School of Nursing of any changes.

- Completion of Annual Health Assessment Form (Located on AUM College of Nursing and Health Sciences website)
- Completion of Immunization Form (Located on AUM website under Student Health Services)
- Proof of flu vaccination annually (administered from October to March)
- PPD test or chest x-ray annually
- Drug screening for pre-licensure students or post-licensure students not currently employed
- Proof of current BLS certification (Basic Life Support for Healthcare Providers through American Heart Association)
- Proof of any other additional requirements for specific agencies as necessary
- Evidence of patient confidentiality training (Health Insurance Portability and Accountability Act [HIPAA])
- Proof of personal health insurance (students are responsible for payment of any health care services)
- Proof of annual malpractice insurance and comprehensive general liability insurance. Billed through AUM Cashier office for pre-licensure students.
- Certification of clear background through CastleBranch for continued enrollment for pre-licensure students or post-licensure students not currently employed at www.castlebranch.com
- Proof of current unencumbered licensure as a registered nurse for post-licensure students
- Statement of acknowledgement of policies and procedures as set forth in the AUM SON student handbook (see forms section)
- Confidentiality agreement (see forms section)
- Signed classroom behavior policy (see forms section)
- Consent for photographs or video (see forms section)

The information above must be uploaded to CastleBranch by the appropriate date. Failure to provide or falsification of the above documentation is grounds for dismissal from the School of Nursing.

Student documents must be current and complete in order to participate in any clinical practice learning experience that involves patients or clients. Students who do not have background and drug screening clearance may not be able to complete the program and graduate. Students may also be asked to successfully complete clinical agency-mandated educational programs to participate in clinical learning experiences.
PROGRESSION

Progression for Baccalaureate Students

Students must meet the following criteria in order to progress and graduate from the nursing program:

- A minimum GPA of 2.0 in nursing major
- Achieve a 73% or greater average on exams/quizzes before scores from alternate assessments as defined in the course syllabus are averaged into the course grade
- Earn a grade of “C” or above in all nursing courses
- Achieve a grade of “satisfactory” (S) in all clinical/lab components of all nursing courses
- Maintain licensure as a Registered Professional Nurse (post-licensure students) – must notify advisor if status changes during the program

Students who do not meet all of the above criteria must petition to the Admission, Progression, and Graduation (APG) Committee to request consideration to remain in the nursing program. The petition must be received by the APG no later than three business days following official faculty submission of grades to the registrar (See AUM Academic calendar for specific date and time each term).

- Students failing a theory course, with successful completion of clinical companion course, may be encouraged to retake the theory course with an Independent Study to update clinical skills.
- Students failing a clinical course, with successful completion of theory companion course, may be encouraged to retake the clinical course with an Independent Study to update theoretical knowledge.
- Failure (a grade lower than C) of two (2) nursing courses constitutes disenrollment from the nursing program.
- A student may not repeat more than one nursing course.
- The Upper Division nursing curriculum must be completed within four (4) years of the first course taken in the program. (Refer to Undergraduate Handbook for additional requirements)

Withdrawal or Out of Sequence Students

- A student is considered out of sequence when not enrolled or actively participating in upper division nursing courses for greater than four (4) months if pre-licensure or two (2) consecutive semesters if post-licensure, who has earned fewer than two (2) grades of “D”, “F”, or “FA” in an upper division course and was in good standing in their last attendance.
- Out of sequence students must submit the appropriate paperwork to the Admission, Progression, and Graduation (APG) Committee by the end of the first week of the semester prior to their anticipated return to upper division course work.
- The APG Committee will review the student’s past performance and current status of admission criteria in addition to recommendations from course faculty and the student’s advisor. Written notification via AUM email will be sent to the student within four (4) weeks of the request regarding the committee’s decision and if approved to return the notification will include which semester the student must return.
- If approved to return, the student must meet with the Program Coordinator to develop a plan of study which may include a 1-3 hour Independent Study course.
  - The student must score at least 73% on exams/quizzes and/or receive a “S” in all clinical/lab content of the Independent Study course to resume upper division nursing course work in the approved semester.
  - If a student scores less than 73% or an “U” in the Independent Study course, this will be counted as one nursing course failure. If this is the first nursing course failure, the student may retake the Independent Study course. If this is a second nursing course failure, the student will be disenrolled from the nursing program.

Dropping Out or Deceleration from Cohort Plan of Study

Students who wish to withdraw from or decelerate in the nursing program MUST confer with and notify in writing the appropriate Program Coordinator. Students who drop out without notifying the School of Nursing may not be considered for readmission.

Continuation or Re-admission (after dropping out, dismissal or deceleration)

Students must:
1. Complete an APG petition form requesting continuation or re-admission, and a new nursing application, if requested (required if the student has not been enrolled or actively participating in upper division nursing courses for greater than four (4) months for pre-licensure or two (2) consecutive semesters for post-licensure).
2. Identify reason(s) he/she is petitioning or has been out of the nursing program.
3. Provide a letter of plan for success once re-admitted to the program. If petitioning for re-admission, the student must provide documentation of remediation and evaluation recommended and/or required at the time of dismissal (if applicable).
4. The petition must be received by the program coordinator or Dean not later than three business days following official faculty submission of grades to the registrar (see AUM Academic calendar for specific date and time each term).

Student petitions do not guarantee re-admission and evaluated on an individual basis by the APG committee. During each deliberation, the committee will consult with faculty members as appropriate with consideration of academic performance, professional demeanor, and personal conduct during the student’s time in the program.
• Behavior indicative of possible substance abuse will require submission of drug and/or alcohol screening.
  o If results are positive, student will be dismissed from the nursing program and referred to appropriate program coordinator and other administrative officials.
• Re-admission is dependent upon available classroom, clinical and faculty resources and students are readmitted based on available space.
• If re-admitted, the student will meet with their advisor along with the appropriate program coordinator to develop a plan of study for successful completion of the program.
  o The plan of study may include clinical and/or didactic independent studies and course audit requirements designed to update the student’s clinical practice and/or theoretical knowledge or bring it to the level of other students enrolled in the semester in which the student is returning.
• Student documentation of current BLS, health insurance, health requirements, drug screening and background checks will be required.
• Students are notified via AUM email of the actions, recommendations, and/or requirements specified by the APG committee.

Appeal of Grades
Students who wish to appeal a grade or an action taken in a course should follow procedures outlined in the AUM Undergraduate Catalog and AUM Student Handbook. Students, who wish to appeal a progression decision of the Admission, Progression, and Graduation (APG) Committee, may request the opportunity to meet with the committee. Requests should be made directly to the APG Chairperson.

Graduation
Each student is responsible for reading and understanding the degree requirements and written policies as stated in the AUM Undergraduate Catalog for the year during which he/she enrolled. The year under which a student enrolled can be found in Degree Works.

Students should meet with an advisor each semester regarding his/her program of study. Degree Works is available online from MyAUM in the Campus Resources Launchpad and can be accessed by the student at any time. Making appointments to meet with advisors/mentors/counselors is highly recommended. An “Intent to Graduate” form must be filed by the deadline announced by the University Academic Calendar.

NCLEX-RN Examination
Upon successful program completion and recommendation by the Dean, graduates are eligible to take the National Council Licensure Examination (NCLEX-RN) leading to the registered nurse (RN) license to practice nursing.

The School of Nursing cannot guarantee that students will be permitted to sit for the NCLEX-RN licensure examination with a criminal or substance abuse history. Questions such as this should be cleared with the school and the Board of Nursing as early as possible. It is imperative that students notify the Dean within 72 hours or any arrest or DUI that occurs while a student is in the program. IMPORTANT: While the actual incident may not result in dismissal, failure to report such incidents is more likely to result in the student’s dismissal from the School of Nursing if discovered.
Grades below “C” are unacceptable for credit towards a nursing degree.

Satisfactory academic progress in the program involves maintaining the standards of academic and professional integrity. Failure to maintain these standards may result in termination of the student from the program.

Calculation and Rounding
Grades will be rounded to the nearest whole number. If the 2 digits to the right of the decimal point are above 50, the digit to the left of the decimal point will increase by 1. If not, no change will occur and only the digits to the left of the decimal point will be recorded. For example:

72.49 = 72 (D)
72.50 = 73 (C)
79.49 = 79 (C)
79.50 = 80 (B)
89.49 = 89 (B)
89.50 = 90 (A)

*Students must achieve a 73% or greater average on exams/quizzes before scores from alternate assessments as defined in the course syllabus are averaged into the course grade. The overall averaged course grade must also be 73% or greater to successfully complete the course. Additionally, students must receive a satisfactory grade on all S/U assignments and lab/clinical components if included in the course.

**An average of 72% or below on exams/quizzes and/OR a lab/clinical average grade of U will result in course failure.

STANDARDIZED TESTS
Standardized tests may be administered throughout the curriculum and may be scheduled outside of the scheduled classroom time in AUM campus computer labs. Students are required to take these exams when scheduled and are responsible for costs associated with their administration. See course syllabus for standardized exam(s) placement and scheduled date(s) and time(s). AUM SON currently utilizes Health Education Systems, Inc. (HESI) for standardized testing. In addition, faculty may choose to use other resources. *Ear buds or headphones are required for standardized testing for alternate test questions.

HESI Exam Policy.
Exam Integrity.
Students are responsible for maintaining the academic integrity of all HESI resources. Although HESI and faculty monitor exam integrity, the professional nursing Code of Ethics and personal student integrity support that no content on the exams will be distributed to individuals, groups or internet sites.

Before the First Exam.
Prior to taking the first HESI exam each student should visit https://evolve.elsevier.com/studentlife/hesi.html to Take Control with HESI. Information and videos are available to answer all of your questions regarding how to get the most out of this resource for success.

The HESI score.
The HESI score is used to describe performance on the Specialty and Exit Exams. The HESI predictability model (HPM), a proprietary mathematical model, is used to calculate each HESI score (typical range from 0 to 1500). The HPM considers several factors, including the difficulty level of each test item and the performance by that student on all of the items. Research on predictive accuracy of the HESI exams has been conducted using this HESI score. Research studies have found the HESI Score to be highly accurate in predicting NCLEX® success. For example, while a score of 850 or more is acceptable, students who score at 900 or above on the HESI Exit Exam are predicted to pass the NCLEX without additional preparation.

HESI Conversion Score*. 

10
To ensure consistency in use, HESI provides a “conversion score”. The conversion score is a weighted percentage score that considers the average difficulty of the exam and the average difficulty of the test items answered. There is a relationship between the HPM and the conversion score, but it is not a strict percentage.

For example, a HESI score of 850 (the score HESI describes as "acceptable performance") can result in a converted score anywhere between 60 and 75%, depending on the difficulty of the test items the student answered. The "conversion score" was developed to better reflect the student's ability than a traditional percentage score, which would not take into account the difficulty level of the test items.

**HESI Semester Exams.**

1. Nursing students will take HESI exams each semester in the program.
2. Standardized testing
   a. The conversion score* for each exam provided by HESI will be recorded for up to 10% of the students' final course grade.
      i. See course syllabus for any further explanations if taking multiple exams.
   b. Course faculty may require a practice exam to be completed in advance of the standardized exam.
      i. See course syllabus for any needed requirements prior to sitting for the proctored exam.
3. It is strongly recommended that students score a minimum of 850 on the HESI exams, demonstrating retention of learned material (see HESI Remediation if score below 850).
4. Faculty will use the various HESI content and specialty exams at their discretion regarding timing within courses. For example, version one or version two of an exam may be used for one student cohort in one course, while another course may include both version one and two.

**HESI Exit Exam (E2).**

The AUM School of Nursing has set the benchmark as 850 for the HESI E2, as research has shown this score predicts a 95% likelihood of passing the NCLEX. Students in the AUM SON professional nursing program will take two (2) separate versions of the HESI Exit Exam (E2) to fulfill NURS 4420 course requirements. HESI will provide a conversion score* which will be used to calculate the course grade. The highest conversion score of the two HESI E2s will be calculated as 10% of the course grade. Grades on other class assignments will be averaged with the highest HESI E2 conversion score. Therefore, a score of 850 does not guarantee that 73% has been achieved to pass the course.

**HESI Remediation.**

An individual student remediation plan will be loaded in the student’s account within 24-72 hours after any HESI exam is uploaded/closed. A document with step-by-step instructions on how to access your HESI remediation can be found on HESI Student Life page [https://evolve.elsevier.com/studentlife/hesi.html](https://evolve.elsevier.com/studentlife/hesi.html)

- Students must complete the recommended HESI remediation for each exam in order to improve areas of identified weakness.
- Students scoring below 850 on any HESI exam must meet with their faculty advisor to evaluate the topical areas needing additional study and use of the remediation plan provided by Elsevier for each exam.
- Please make an appointment with your advisor as soon as possible following each exam and take a copy of your remediation plan to the visit.

Based on **HESI Research Summary prepared by Dr. Barb Schreiner, Director of Research for Review and Testing & Dr. Kim Brunnert, Director of Psychometrics 4/9/14; Adopted Aug. 2015**

**EXAMINATIONS**

Students are expected to be present for scheduled examinations. Absences are not permitted for examinations except for verified emergencies or unexpected events. If a student must be absent on the day of the scheduled examination, he/she must contact the course coordinator, preferably before the exam is given, but NO LATER THAN THE END OF THE SAME SCHOOL DAY. Make-up exams are at the discretion of faculty/course coordinator. If a make-up exam is offered, a different format may be used such as short-answer or essay questions. Faculty may require documentation from the student related to reason(s) for a missed exam.

The use of personal digital devices, cell phones or other instructional aides is not allowed during examinations unless given permission by the faculty. *Students should bring a simple non-scientific calculator to exams.* Exams should be assumed closed book and should be completed without assistance unless otherwise specified. Examinations should not be shared with anyone before, during or following testing. No copies, including screen shots, of any part of an exam or exam review may be taken or shared. (see the Academic Honesty Code in the Undergraduate Catalog and Code of Conduct in the AUM Student Handbook)

*Please read course syllabi carefully for the weight of exams and additional assignments.*
Respondus LockDown Browser
Some quizzes/examinations will be proctored and given in AUM campus computer labs. For these exams (except standardized exams given through a secure site) Respondus LockDown Browser will be used. Each campus computer will have Respondus LockDown Browser already installed. There will be an icon on the Desktop for quick access. When taking the test, the Respondus LockDown Browser must be opened first and then you will go to the quiz/exam in Blackboard.

FORMAT FOR WRITTEN ASSIGNMENTS
For all College of Nursing courses, the current edition of the APA Publication Style Manual is required for all written work and formal presentations. APA style includes grammar, punctuation, organization, scholarly thought, proper citation, and reference formatting. Submissions not meeting these requirements will be graded accordingly. All papers, projects, care plans, tests and other assignments become the property of AUM School of Nursing. Original work will be submitted for grading and students are encouraged to keep copies of all written work.

PROFESSIONAL EQUIPMENT
Students are expected to have basic equipment for patient care during lab and clinical experiences. Necessary equipment includes a professional stethoscope with a bell and diaphragm, bandage scissors, a watch with a second hand, penlight, and a pen with black ink. A calculator is recommended but not required.

TRANSPORTATION
Students are responsible for arranging transportation to and from clinical sites. Absence from class or scheduled clinical experiences due to transportation problems is not acceptable. Carpool arrangements will not be part of the decision-making process when scheduling clinical assignments.

REGISTRATION FOR COURSES
Prior to registration each semester, students must make an appointment and meet with their assigned advisor to receive the appropriate PIN number and review their plan of study. Before this meeting students should access Degree Works through MyAUM to review posted grades for accuracy. Concerns about any discrepancies should be discussed with the student’s advisor or course faculty.

Students are responsible for registering for the correct courses each semester through Webster. Dates for registration are found in the Academic Calendar. Overrides for courses are processed in person in the SON office.

Following registration and during the add/drop period, students should review Webster to ensure they are registered correctly for the desired/required courses for the semester. Corrections must be made during the add/drop time period. Please contact your advisor for registration problems. Failure to make corrections in the appropriate time frame will lead to issues with progression and possibly additional fees.

OUTSIDE EMPLOYMENT
Employment should be limited as much as possible in order to allow for ample time to prepare and participate in course requirements. Students should expect a minimum of two full days of clinical experience per week and two or three full days of class and other required lab experiences. Studies have shown that working greater than 20 hours per week challenges the student’s ability to be successful in college course work.

Auburn University at Montgomery Credit Hour Policy
Auburn University at Montgomery (AUM) defines one credit hour as the unit of work that includes no less than one 50 minute period of classroom or direct faculty instruction and completion of assignments that typically requires 2.5 hours of out-of-class student work for each credit hour for approximately fifteen weeks for one semester or the equivalent amount of work over a different amount of time. AUM expects that for each credit hour awarded, and appropriately prepared student will complete an average of 3 to 3.5 hours of academic work per week over the length of a 15 week semester. The same general expectation of student work exists for credits awarded for practica, internships, activity courses, laboratory experiences, and distance learning courses, although there will be variations top accommodate differences among academic disciplines. Approved July 2013.
Learner Responsibilities:

- Adhering to HIPAA guidelines when discussing patient and facility information during classroom experiences.
- Maintaining standards of academic integrity for all courses, quizzes, exams, and assignments.
- Accepting accountability for actions.
- Being respectful and civil to others.
- Considering others when asking questions or making comments.
- Being attentive and engaging in classroom activities.
- Submitting paperwork and assignments timely.
- Using technology devices for classroom purposes only.
- Dressing appropriately to portray a professional image of nursing and personal dignity at all times.
- Obtaining permission from faculty before audio or video recording or taking pictures of any portion of the class content.
- Accepting accountability for actions.
- Adhering to HIPAA guidelines when discussing patient and facility information during classroom experiences.

EXPECTED BEHAVIORS FOR CLASSROOM EXPERIENCES

Students are expected to demonstrate behaviors consistent with those of a professional nurse at all times. Classroom behaviors which are expected include, but are not limited to:

- Attending each class to include being punctual and remaining for entire class.
- Submitting paperwork and assignments timely.
- Being prepared for each class experience.
- Being attentive and engaging in classroom activities.
- Considering others when asking questions or making comments.
- Turning off cell phones or placing them on vibrate.
- Using technology devices for classroom purposes only.
- Being respectful and civil to others.
- Accepting accountability for actions.
- Obtaining permission from faculty before audio or video recording or taking pictures of any portion of the class content.
- Dressing appropriately to portray a professional image of nursing and personal dignity at all times.
- Maintaining standards of academic integrity for all courses, quizzes, exams, and assignments.
- Adhering to HIPAA guidelines when discussing patient and facility information during classroom experiences.

ONLINE EDUCATION GUIDELINES

A course delivered via distance education technology is different than that delivered in a classroom environment. For that reason the following guidelines will assist the learner in navigating this course. The learner responsibilities are considered to be course policy and must be followed. Points to consider:

- Online and hybrid courses give students greater freedom of scheduling, but they can require more self-discipline than on campus classes. Students may neglect a course delivered using distance technology because of personal or professional circumstances. Find ways to motivate and discipline yourself when taking an online or hybrid course.
- Identify your personal learning style using an assessment tool such as Myers Briggs© and/or VARK©. This awareness can help you adjust to the online learning environment.
- Some students prefer the independence of online learning, while others miss the classroom experience. Reach out to your peers online to become a community of learners.
- Online learning requires you to work from written directions. Printed materials are the primary source of information. Students are required to be articulate through a written medium. There are few oral and non-verbal cues. If you have questions, please ask!
- It may take several days to a week to get comments back from your course faculty.
- Online learning requires as much time as on-campus courses, sometimes more.
- Students who do well in an online course are usually comfortable contacting the course faculty as soon as they need help with the course.

Learner Responsibilities:

- Learning in the distance education environment cannot be passive. If students do not enter into the online classroom - do not post a contribution to the discussion - the professor has no way of knowing that they have been there. So students are not only responsible for logging on, but they must contribute to the learning process by posting their thoughts and ideas to the online discussion. Learning is an active process in which the instructor and the learners must participate if it is to be successful. In the process, a web of learning is created. In other words, a network of interactions between the professor and other participants is formed, through which the process of knowledge acquisition is collaboratively created (Paloff & Pratt, 1999, p. 6).
- Computer access is necessary. If you do not own a computer, you may use one in the computer lab in the School of Nursing or in the University Center computer lab. Contact AUM ITS Help Desk @ for technical support at http://www.aum.edu/about.
CLINICAL OBSERVATION EXPERIENCES
During observation experiences students may not provide direct patient care. Students need to prepare in advance for observation experiences. Students are encouraged to ask questions of staff, interact with agency’s patients, and request to be present at all activities relevant to the objectives for the experience.

Absence from a confirmed observation is treated the same as an absence from a clinical experience. Students needing to change the date of an observation should discuss this in advance with the course faculty.

CLINICAL ACCOUNTABILITY
Auburn University at Montgomery and the School of Nursing is morally and legally obligated to protect the safety, privacy, and security of patients. Students must therefore demonstrate evidence of mastery of certain skills and competencies to provide care in the clinical setting and meet course objectives. It is expected that students will follow policies and procedures of the clinical agency and maintain confidentiality of patient and agency information.

AUM SON students are expected to demonstrate appropriate professional behavior to the nursing profession. They must assume personal responsibility for being in physical and mental condition to give safe nursing care and for the knowledge and skills necessary to give this care. Students who are pregnant or become pregnant during the nursing program must notify the clinical faculty and Assistant Dean for Clinical Practice in writing. Students who develop any other illness or medical or psychological condition that may affect their own safety or their ability to provide care to patients must report that condition in writing to the clinical faculty and Assistant Dean for Clinical Practice. A written medical clearance may be required from a physician or health care provider.

Students who are deemed unsafe or unable to perform patient care at clinical will be removed from the clinical area and must meet with the course faculty. This may result in clinical failure and/or dismissal from the School of Nursing program. In some cases, a medical withdrawal may be indicated.

EXPECTED BEHAVIORS FOR CLINICAL EXPERIENCES
Students are expected to demonstrate consistent behaviors for safe practice with direct instruction and supervision of the faculty and/or preceptor. Students must be performing satisfactorily in each clinical course by the end of the semester. Students who are deemed unsafe will be removed immediately. All documentation must be accurate, reflecting care rendered.

Students should arrive for clinical on time and should stay for the full scheduled shift. Students must notify their faculty or clinical agency if they will be absent or late. Failure to do this will result in an unsatisfactory for the clinical day and may result in an unsatisfactory grade in the clinical course. Chronic tardiness or unexcused absences will result in clinical failure.

Attention and involvement in the clinical experience is expected. Examples of unacceptable inattentive behaviors include, but are not limited to: sleeping, reading the newspaper, checking email, exploring the internet and other distracting behaviors not appropriate during the clinical experience.

Students should be cognizant that faculty time must be shared with all students during each clinical experience. A personal appointment with the faculty member outside of clinical time may be necessary.

Students demonstrating unacceptable behavior in the clinical setting will meet with clinical faculty and complete an Reportable Occurrence Form (see Forms section). The form will be placed in the student’s file following a meeting with the course faculty. Remediation may be required for any skills which are unacceptable. Disciplinary action, including clinical failure and possible disenrollment from the program, may also be taken for students with unacceptable behavior. Examples of unacceptable clinical behaviors include, but are not limited to:

- Performing nursing care in an unsafe or harmful manner.
- Providing direct patient care without the supervision of a registered nurse.
- Willfully or intentionally doing physical and/or mental harm to a patient.
- Exhibiting careless or negligent behavior in connection with care of a patient.
- Breaching confidentiality of the patient or agency
  - Using information that can be used to identify a patient on written assignments
  - Discussing confidential information in inappropriate areas including social media
  - Discussing confidential information about the patient to third parties who do not have a clear need to know
  - Removing any record or report (or copy) from the area where it is kept, except in performance of student nurse
assignment
  • Violating HIPAA guidelines
  • Falsifying patient records or fabricating patient experiences
  • Falsifying required documentation related to clinical experience including clinical logs, journals, and other paperwork related to the School of Nursing experiences
  • Failing to report omission of, or error in, assessments, treatments or medications
  • Illegally using, possessing, selling, or distributing illicit drugs or alcohol; or using prescribed, over the counter, or illicit substances in such a manner as to impair one’s judgment or performance as a nursing student
  • Failing to report body substance exposure or needle stick to clinical faculty
  • Failing to disclose an illness or medical condition that may affect the student’s safely or ability to provide safe patient care
  • Disrespectful and/or rude behavior towards patients, family members, faculty, staff members or fellow students will not be tolerated and will result in disciplinary action. The student will be required to leave the clinical experience and receive an unsatisfactory for the day. This may result in a course failure or dismissal from the School of Nursing program.

CLINICAL HOUR RATIO
1 credit = 3 contact hours in the clinical area
1 credit = 3 contact hours in the laboratory setting
1 contact hour in simulation = 3 clinical hours

UNIFORM POLICY
Students should maintain a professional appearance consistent with the nursing profession at all times. When in AUM uniform you are representing the School of Nursing and the nursing profession and all guidelines must be followed. The required dress for ALL clinical experiences (including the AUM Nursing Resource Center) includes, but is not limited to the following:
• Appropriate clean and wrinkle-free AUM SON uniform of black pants, white top, and black scrub jacket (if desired) purchased from designated vendors. The top and jacket must have approved embroidered College of Nursing and Health Sciences insignia
• No other outer garments are allowed in the clinical settings (jackets or sweatshirts)
• Uniform should allow for proper movement without being offensive (i.e., no display of cleavage, midriff, or buttocks)
• For infection control, pants must not touch or drag the floor
• Solid white undershirt or camisole must be worn under the white top – no colors and no visible undergarments
• Black or white leather shoes (closed toe/heel) with no writing or insignias – no mesh or cloth shoes, no clogs or slide on shoes
• AUM College of Nursing and Health Sciences nametag
• All tattoos must be covered
• A single pair of stud earrings in the lower earlobe is the only body piercing jewelry allowed
• A plain band ring may be worn if desired
• Short, clean fingernails – no nail polish of any type or acrylic nails allowed
• Trimmed beards or clean shaved look
• False eyelashes and lash extensions are prohibited
• Hair must be above shoulders or restrained – bangs should be secured if fall over face with head looking down
• Due to sensitivities, body fragrances are not allowed
• See course syllabi for any additional requirements

Alternate Uniform
At times students will be required to wear an alternate uniform. Please refer to the course syllabus. When in alternate uniform you must adhere to all guidelines consistent with professional appearance and as representatives of the School of Nursing and the nursing profession as listed above. When asked to wear the alternate uniform the required dress includes but is not limited to the following:
• Loose fitting full-length khaki slacks (i.e., no jeans, leggings, crop pants, or shorts)
• Loose fitting black polo shirt with embroidered College of Nursing and Health Sciences logo
• Brown or black closed toe/heel shoes with no writing or insignias

Failure to comply with the above professional dress code will result in dismissal from the clinical/lab experience and a makeup experience will be required.

Activities requiring business casual attire:
Professional or business attire may be appropriate for certain experiences. Faculty will notify you if this is appropriate prior to the experience. Please see table below.
Overall Dress Code Requirements – Business Casual

MANAGEMENT OF EXPOSURE OR INJURY

Every effort should be made to avoid potentially dangerous situations in the clinical setting, but there are risks during nursing procedures. All students are required to implement Universal Precautions and safety measures in every clinical setting to decrease risks. Any student who has been exposed to blood and/or body fluids (i.e. needle sticks), communicable disease or sustained an injury will:

- Immediately report the incident to the clinical faculty, course faculty or preceptor
- The clinical/course faculty will:
  - Report the incident per clinical agency protocol
  - Notify the course faculty immediately and Assistant Dean for Clinical Practice
  - Submit a written report to the Dean and course faculty within 24 hours
- The student will follow the procedure of the clinical agency
  - Immediate treatment may include:
    - **Puncture wound:** Bleed wound and wash with soap and water;
    - **Exposure to eyes or mucous membranes:** Immediately flush with copious amounts of water;
    - **Exposure to other body surfaces:** Wash with soap and water
- The student will complete a Student Incident Report Form (see Forms section) within four (4) hour of incident
- The course faculty or Assistant Dean for Clinical Practice will:
  - Notify the Infection Control Nurse at the facility for further instructions on follow up
  - Student may be asked to be treated in the Emergency Department as necessary
  - Notify AUM Nursing Care Center through memo of incident to be filed in student record
- Students are responsible for all expenses incurred
  - Treatment will vary depending on the magnitude of exposure and the risk status of the source
CLINICAL PRACTICE POLICY

Every AUM School of Nursing student is expected to demonstrate professionalism and safe practice at all times, in the clinical setting and while in the Nursing Resource Center. Any evidence of inappropriate behavior, as described by professional healthcare organizations such as American Nurses Association (ANA), Joint Commission (JC), and the Alabama Board of Nursing (ABN), may result in the student being asked to leave the clinical area and receive an Unsatisfactory for the day and/or course. Such behavior described by professional standards of care (i.e., ANA, ABN). Any behaviors inconsistent with this expectation will be documented and will remain a part of the student’s clinical performance record throughout the nursing program. Unacceptable behaviors may be classified as unsatisfactory/unsafe or critical unsatisfactory/unsafe. Every unsatisfactory/unsafe behavior will have an incident report completed. (see Forms section)

UNSATISFACTORY/UNSAFE PRACTICES

An Incidence report will be completed for the following:
1. Any unprofessional/inappropriate behaviors as deemed by the clinical faculty, course faculty, or NRC Coordinator.
2. Any unsafe/negligent behavior that could have resulted in physical/emotional harm to the client without faculty/staff intervention.

An accumulation of 3 incidence reports will result in a full review of the student’s clinical performance record by the Clinical Review panel.

CRITICAL UNSATISFACTORY/UNSAFE PRACTICES

The following behaviors are considered critical unsatisfactory/unsafe and potentially place the client, self or others in immediate danger. An incident involving any of these behaviors will result in immediate dismissal from the clinical setting, consequences for the specific policy violated, and an immediate full panel review from the Clinical Review Panel and may result in disenrollment from the School of Nursing.
1. Behavior that results in real or potential physical or emotional harm.
2. Behavior that is in violation of the course, school, university, or agency policy.
3. Violation of the Drug free campus and/or Suspicion of Chemically Impaired in the Nursing Student Policy.

INCIDENT REPORTS AND CLINICAL REVIEW PANEL PROCESS

1. Clinical faculty will notify the student of the behavior
2. Clinical faculty will remove the student from the site as appropriate
3. Clinical faculty will notify Clinical Course Faculty at the time the incident is identified and the Assistant Dean for Clinical Practice as indicated
4. Clinical faculty will complete an incident report and send to Clinical Course Faculty by the end of the clinical day
5. Clinical Faculty or Clinical Course Faculty will meet with the student to provide an opportunity for the student to document a statement of the incident

The Clinical Review Panel consists of the Assistant Dean for Clinical Practice, and two (2) other faculty not assigned to the course designated by the Associate Dean. Panel members may recuse themselves if there is a perception of conflict of interest. In this situation it may become necessary to supplement the membership of the panel. The student will not be able to participate in further clinical activities until the panel has made a recommendation and course faculty has made a final decision.

The Panel will make one of the following recommendations to the course faculty:
1. Student and faculty develop a plan of remediation
2. Assign course failure(s)
3. Submit recommendation to the dean to disenroll the student

The panel will communicate the recommendation in writing to the course faculty. Course faculty will consider the recommendation, make the final decision, and communicate decision to the student.

All unsatisfactory/unsafe incidents will be recorded and kept on file. Records must be maintained throughout the upper division clinical experiences for each student. Incidences are not confined to one course but are considered cumulative in evaluating the student’s overall clinical performance.

NOTE: Accrued incidence reports will remain in effect for all students.
DRUG SCREENING POLICY
All nursing students participate in clinical practice held at various health care institutions in Alabama. These clinical agencies and Auburn University at Montgomery School of Nursing have contractual relationships that require the School to abide by the substance abuse control policy of the agencies. There are several agencies that are used for clinical experiences for all students and that require the School of Nursing to certify that our students have completed a negative screening for drugs. Because these required clinical experiences begin in the first semester of the program, all nursing students will have a pre-admission 10-panel urine drug screening conducted according to current laboratory protocols. Additional drug screening will be done if the student exhibits behaviors indicative of substance abuse after admission. Students are responsible for fees incurred.

Pre-Clinical Screening
A positive pre-admission drug screen will result in the denial of admission to the School of Nursing. If there is a valid medical reason why a student is taking a drug on the screen, a letter from the prescribing physician stating the reasons for the medication and the expected duration of treatment must be sent to the Dean.

SUSPICION OF CHEMICAL IMPAIRMENT IN THE NURSING STUDENT POLICY
In order to provide a safe teaching and learning environment to students and to patients who receive nursing care from students, nursing students must not be chemically impaired during participation in any learning experience, including classroom, clinical laboratory, clinical settings, and other school sponsored functions.

The School of Nursing follows the university’s policy prohibiting the illegal possession, use, or distribution of drugs and/or alcohol by students on university property or as a part of any university affiliated academic activity, including off-campus clinical learning experiences. Violators will be prosecuted in accordance with applicable laws and ordinances and will be subject to disciplinary action by the university in conformance with university policy (See Auburn University Montgomery Student Handbook regarding Drug-Free Campus and Workplace Policy Statement) and/or the policy of the clinical site agency.

The AUM SON defines the chemically impaired student as a person who, while in the academic or clinical setting, is misusing or abusing, either separately or in combination: alcohol, over-the-counter medication, illegal drugs, prescribed medications, inhalants, synthetic designer drugs, or other mood altering substances. Abuse of the substances includes episodic misuse or chronic use, either prior to or during the academic or clinical experience, which has produced psychological and/or physical symptoms and presents a danger to the students or others.

Procedures for Faculty Intervention with the Suspicion of Chemical Impairment in the Nursing Student

• **Notify the Dean of the School of Nursing.** If the Dean is unavailable for consultation, the faculty should proceed with intervention according to procedure and notify the Dean as soon as possible.
• If the student demonstrates impaired behaviors, remove the student to a private area and question the student regarding the use of any substances and, if used, what, when, and how much was used and by what route it was taken.
• Discuss the signs and/or behaviors observed and allow the student to provide a brief verbal explanation.
• Even if the student denies misuse or abuse of any chemical substances the student will be relieved of further clinical and/or classroom responsibilities until notified to the contrary by the Dean of the School of Nursing.
• The student is informed they appear to be in violation of the Policy regarding the suspicion of chemical impairment and sent immediately for a urine drug screen – transportation should be arranged for drug screen and then home (student is responsible for any costs incurred during the process).
• Faculty must meet with the student the next day school activities are in progress.
• Gather and document data on behaviors.
• Submit report to the School of Nursing Dean and the student.
• *The Dean will meet with the student and faculty – student is given opportunity to respond (copy will be placed in separate, confidential file in the Dean’s office.*
• **For positive drug screen:** Student will be required to provide a comprehensive chemical dependency evaluation prior to being allowed to return to class or clinical (student is responsible for any costs incurred during the process).
• **For negative drug screen:** Student may be required to have a physical from a health care provider indicating they are able to continue safely in the clinical setting.
• A semester grade, as appropriate, of I (Incomplete), W (Withdrawal), F (Failure), or U (unsatisfactory) will be assigned for current nursing courses following the chemical dependency evaluator’s determination of the student having been chemically impaired. Factors related to the grade determination include the amount of course work completed, the time remaining in the semester, the ability of the student to complete the course requirements, the current standing in the course, and the treatment recommendations of the chemical dependency evaluator. (See Forms section)
• If the student refuses to obtain a comprehensive chemical dependency evaluation, the student will be dismissed from the program and may not return as an out of sequence student. The student has a right to appeal this decision as outlined in the AUM Student Handbook.
During the meeting, the academic consequences will be explained to the student by the Dean. Participation in clinical course work is contingent upon completion of the comprehensive chemical dependency evaluation as follows:

Chemical Dependency Treatment is not recommended: The student will be allowed to continue in the nursing program, but will have random drug screens performed.

Chemical Dependency Treatment is recommended: The student must withdraw from the course and may reapply for admission ONLY after successful completion of the treatment program and a recommendation from the treatment facility. In the event that the student is readmitted the student will sign an agreement to have his or her progress monitored by the Auburn University Montgomery School of Nursing, which will include random drug screening throughout the program.

Licensed Nursing Student: If a licensed nursing student has a positive urine drug screen, the student must notify the Alabama Board of Nursing within five working days. The student is required to obtain a chemical dependency evaluation. If treatment is recommended the student may voluntarily request to enter the Alabama Nondisciplinary Alternative Program for Impaired Nurses (see Chapter 610-X-13 of the Alabama Board of Nursing Administrative code). If the student fails to contact the Board of Nursing, the Dean of the School of Nursing will contact the Board regarding the positive urine drug screen. The Auburn University Montgomery School of Nursing will work cooperatively with the Alabama State Board of Nursing to ensure the student’s program compliance and successful completion. Students must complete treatment before continuing in the Auburn University Montgomery Nursing Program.

If additional or continuing chemical impairment occurs subsequent to implementation of these procedures, the nursing faculty will administratively dismiss the student from the program. The student has the right to appeal this decision as outlined in the Student Handbook.

The University has a responsibility to comply with the Americans with Disabilities Act of 1990. Implementation of this policy will not violate the rights for those students who qualify under this Act.

Signs and Symptoms of Possible Substance Abuse Among Nurses/Nursing Students

Psychological Problems: Irritability Moodiness, Tendency to isolate self

Symptoms: Odor of alcohol, Slurred speech, Unsteady gait, Errors in judgment

Social Change: Eats alone, Avoids social gatherings, Excessive absenteeism, A pattern of tardiness, Late assignments with elaborate excuses, Avoiding peers and faculty, Avoiding group work, Deteriorating productivity

Change to Personal Appearance: Change in dress, Unkempt appearance, Flushed complexion, Red eyes, Hand tremors, Swollen face

Mental Status Changes: Forgetfulness, Confusion, Decreased alertness

General Behavior: Inappropriate responses, Elaborate excuses for behavior, Intolerance of others, Suspiciousness, Nervousness
CORE PERFORMANCE STANDARDS

Core Performance Standards for Admission and Progression for pre-licensure students for Clinical Coursework in the College of Nursing (Adapted from the Southern Council on Collegiate Education for Nursing)

Students admitted to the AUM School of Nursing must be able to meet the Core Performance Standards for Admission and Progression when entering into clinical courses. The School of Nursing will provide reasonable accommodations to a qualified nursing student with a disability. However, it must be noted that nursing is a physically and mentally demanding profession. All students must be able to continually meet core performance standards and functional abilities established to ensure that the objectives of the program are met and safe, competent patient care is provided. The following Core Performance Standards will be used by Center for Disability Services, and students, along with faculty, to determine whether or not accommodation(s) can be made reasonably. It is the responsibility of students to request accommodations in a timely manner and students are encouraged to contact the AUM Center for Disability Services for determination of reasonable accommodations. Students may not receive any accommodations unless the student has been approved for those accommodations by the AUM Center for Disability Services.

<table>
<thead>
<tr>
<th>Issue</th>
<th>Standard</th>
<th>Examples of Nursing Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>Critical Thinking</td>
<td>Ability to critically think for effective clinical reasoning and clinical judgment consistent with the level of educational preparation.</td>
<td>Competent assessment of patients in a timely manner. Correct interpretation of assessment data, identification of necessary nursing interventions, development of appropriate nursing care plans, evaluation of the effectiveness of interventions and revision of planned interventions.</td>
</tr>
<tr>
<td>Cognitive</td>
<td>Ongoing capacity to learn new information and skills to provide safe and effective nursing care. This includes the ability to comprehend, measure, calculate, analyze and evaluate diverse forms of information.</td>
<td>Gain knowledge of new skills and rationales for nursing care in a timely manner. Discover and adopt new methods of providing nursing care to reflect the constantly changing health care environment.</td>
</tr>
<tr>
<td>Interpersonal</td>
<td>Interpersonal abilities sufficient to interact with individuals, families, and groups from a variety of social, emotional, cultural and intellectual backgrounds.</td>
<td>Establish rapport and relate effectively with patients, their families, and colleagues. Work effectively with these individuals during times of physical and emotional stress. Provide care with consideration for social and cultural needs of patients and their families.</td>
</tr>
<tr>
<td>Communication</td>
<td>Communication abilities sufficient for interaction with others in verbal and written form to include professional interactions.</td>
<td>Follow verbal and written instructions. Clearly communicate with other health care providers through appropriate documentation of nursing interventions provided and patient responses. Provide effective patient teaching. Professional consultation with other health care providers.</td>
</tr>
<tr>
<td>Mobility</td>
<td>Physical abilities sufficient to move oneself from room to room, along hallways, and in small or confined spaces. The ability to meet the physical demands of providing nursing care.</td>
<td>Lifting, moving, carrying, pushing, pulling, and supporting patients, equipment and other objects independently. Standing, bending, walking, and sitting while working directly with patients and colleagues, and documenting care.</td>
</tr>
<tr>
<td>Motor Skills</td>
<td>Gross and fine motor abilities sufficient to provide safe and effective nursing care.</td>
<td>Perform vital signs, BLS, and physical assessment. Use equipment, hand IVs and tube feedings, draw up and give medications to include injections. Document legibly in writing or accurate type.</td>
</tr>
<tr>
<td>Tactile</td>
<td>Tactile dexterity sufficient for physical assessment.</td>
<td>Perform palpation, functions of physical examination and/or those related to therapeutic intervention, i.e. insertion of a catheter, giving injections.</td>
</tr>
<tr>
<td>Hearing</td>
<td>Auditory ability sufficient to monitor and assess health needs.</td>
<td>Auscultation of blood pressure, breath sounds, bowel sounds. Hearing alarms, call bells, cries for help by patients, families, and co-workers. Understanding mechanically reproduced voices.</td>
</tr>
<tr>
<td>Personal Behaviors</td>
<td>Personal behaviors consistent with the American Nurses' Association Code for Nurses.</td>
<td>Demonstrate personal responsibility, accountability, integrity and honesty. Demonstrates respect for self and others through verbal and nonverbal behaviors. Avoids behavior inconsistent with professional standards such as chemical dependency and abuse, harm toward self or others, or engaging in or supporting criminal behavior.</td>
</tr>

Adapted from Core Performance Standards Required for Nursing, Board of Directors of the Southern Council on College Education for Nursing (SCCEN)
HEALTH INSURANCE PORTABILITY AND ACCOUNTABILITY ACT OF 1996 (HIPAA)
The Health Insurance Portability and Accountability Act of 1996, referred to as HIPAA, was established to provide national standards for privacy and confidentiality of all health information and electronic transmission of all health information.

POLICY
The Auburn University at Montgomery School of Nursing collaborates with healthcare organizations and healthcare providers during the educational experiences for nursing students. In accordance with this collaboration, all students and faculty must abide by HIPAA regulations and provide or verify that education on HIPAA has been provided to students who are enrolled in the program. HIPAA education must be completed before a student or faculty is allowed to begin clinical/practicum with a healthcare organization or healthcare provider.

HIPAA Training Procedure
All students and faculty will complete HIPAA training and submit proof of training by end of first week of classes prior to beginning clinical/practicum experiences. A signed HIPAA confidentiality form will verify training and be kept in the student’s file throughout the program. Required HIPAA training will be completed annually through Blackboard in specific courses. Instructions for meeting this requirement can be found in specific course syllabus.

STUDENTS RIGHTS AND RESPONSIBILITIES

ACADEMIC HONESTY
Honesty and integrity are highly valued in the nursing profession. Dishonesty has serious legal and ethical implications. It is a crucial factor in the maintenance of public trust. Academic dishonesty in any form will not be tolerated. Violations of student academic behavior standards are outlined in the AUM Undergraduate Catalog.

Faculty may use www.turnitin.com or SafeAssign to review papers and projects for plagiarism. The website allows faculty to quickly and easily compare student reports to billions of web sites and databases of student papers. After submission of the paper, faculty receives a report that states if and how another author’s work was used.

Academic action will be taken for the following behaviors:
1. Cheating – whereby non-permissible written, visual or oral assistance including that obtained from another student is utilized on examinations, course assignments or projects. The unauthorized possession or use of examination or course-related material will also constitute cheating.
2. Plagiarism – whereby another’s work is deliberately used or appropriated without any indication of the source. Thereby attempting to convey the impression that such work is the student’s own. Any student failing to properly credit ideas or materials taken from another has plagiarized.
3. Falsification of clinical paperwork, including clinical logs, journals or other related paperwork.
4. A student who has assisted another in any of the aforementioned breach of standards shall be considered equally culpable.

PROFESSIONAL CONDUCT
Students are expected to conduct themselves in a professional manner at all times as representatives of Auburn University at Montgomery and the School of Nursing. It is expected that students will treat faculty, staff, clinical staff, facility staff, patients, families and peers in a respectful manner and strive to promote an environment that respects human rights, values, and choice of cultural and spiritual beliefs. Furthermore, students should strive to maintain optimal personal health and well-being (Review Student Discipline Code in the AUM Student Handbook).

Violation of professional standards of behavior
If a student is deemed to have a problem related to inappropriate behavior/professionalism, including academic Integrity as specified in the AUM Student Handbook, use of cell phones or HIPAA violation, the student may be suspended or disenrolled from the program. Communication of inappropriate student behavior will result in the following actions:
1. An incident of inappropriate action by the student is to be submitted in writing to the Dean.
2. The student will be notified of the allegation.
3. The Dean will appoint an ad hoc committee within five working days* of the submitted documentation. The committee will be composed of an appointed faculty chairperson, the student’s academic advisor, and one other faculty member, and any appropriate university representative.
4. The chairperson will next solicit the student’s response within the next three working days*. 
5. The committee process will review all documentation, conduct interviews as appropriate and make recommendations to the Dean of the College of Nursing and Health Sciences (CONHS).
6. The Dean of the CONHS will consider the committee’s recommendation, and then make the final decision to retain, suspend, or disenroll the student. A written notification of the decision will be communicated to the student and all appropriate individuals.

*Weekdays in which School of Nursing classes are in session
STUDENT GRIEVANCES
Students should follow the appropriate chain of command when a grievance exists. The administrative hierarchy for discussing student concerns is: Faculty, Course Coordinator, Program Coordinator, Assistant Dean, and Dean of the College of Nursing and Health Sciences. (Review Appeal of Grades found in the AUM Student Handbook)

SCHOOL OF NURSING SERVICES

Students with Disabilities
Auburn University at Montgomery and the SON attempts to make reasonable accommodations to meet the special needs of its students with disabilities. Students requiring special services should notify their faculty as soon as possible. Assistance is available from the Center for Disability Services (CDS) which is located in 147 Taylor Center, 334-244-3631 or by email at cds@aum.edu

AUM Learning Center
The SON partners with the AUM Learning Center (LC) which offers free individual tutoring in writing across the disciplines and mathematics in any course for all currently enrolled AUM students. Call or drop by to make a 30-minute appointment. Your instructor will receive a report of your visit. Check us out at http://www.aum.edu/academics/warhawk-academic-success-center/learning-center-isl/learning-center where you will find many helpful pdf documents and links to many excellent web sites. The LC is located on the second floor of the library tower. The LC is also open for evening services in the first floor of the library and tutoring in North Commons for students who live on campus. Call 334-244-3470 to make your appointment or to ask for information about current hours.

AUM Writing Across the Curriculum Program
Some courses are designated writing intensive as noted by a WI on the first page of the syllabus. These courses are supported by the Writing Across the Curriculum Program (WAC). Information on AUM’s WAC program can be found at www.aum.edu/writing
Each writing-intensive course is to meet the completion of AUM’s 5-course WAC program requirement.
Requirements: Students will be required to complete a minimum of 4 written products during each writing intensive course; students will have opportunities for prewriting, drafting, feedback (peer and/or individual), and revision during the drafting of at least one of these written products.

WAC Intern: All content-area writing-intensive courses are assigned a Writing in the Discipline (WID) intern to support students with writing instruction, feedback, and improvement. Students will need to contact the WID intern to make an appointment if help is needed.
Assessment: a) All students will be rated on their writing skills at the end of the semester using a form of the WAC rubric template: http://www.aum.edu/docs/oie/wac-rubric-template.pdf, b) Standardized assessments will be conducted during select semesters.

Technical Assistance
Students can receive technical assistance from a number of resources on campus. If you are having issues with Blackboard a good place to start is in the Blackboard Student Resource and Orientation Course. All students are enrolled in the course and you will find it on your Blackboard course list. You can also look for solutions in the Online Help Desk located in My AUM. If you continue to experience problems please contact the ITS Helpdesk either by email at helpdesk@aum.edu, or by phone at 334-244-3500

Promoting Academic Success (PASS): Mentoring to Educate Retain and Empower Nurses (MEREN)
Mission Statement: The mission of the Promoting Academic Success (PASS): Mentoring to Educate Retain and Empower Nurses (MEREN) program at Auburn University at Montgomery School of Nursing is to provide academic support to nursing students. The PASS-MEREN program will seek to build relationships with students founded on mutual respect, and trust. The PASS-MEREN program will seek to provide activities to further advance critical thinking skills, clinical judgment, test-taking skills, reading effectiveness, and the development of nursing values. The goal of the PASS-MEREN program includes providing students with the skills necessary to achieve success, thus increasing retention and reducing attrition. See course syllabus for MEREN facilitator and contact information.

Service (Community Partnerships/Collaboration)
Service to the school, profession, and community is encouraged both as part of the formal curriculum and through activities of the students and faculty. Students and faculty have both leadership and participant roles in the governance of the university. Active participation in professional organizations is encouraged at the local, state, regional, national and international levels. Collaborative work with the community is evident both in the linkages established by the School of Nursing through professional and civic work of students and faculty.
Service Learning
Service learning is defined as, “a structured experience that combines community service with explicit learning objectives, preparation, and reflection (Seifer, 1998, p. 274)…and is used to “enrich the learning experience, teach civic responsibility, and strengthen communities” (National Service-Learning Clearinghouse, 2011, p. 1).

Service learning will be incorporated into certain courses throughout the program. Please refer to course syllabi for specific information. If service learning is included in the course the following must be met:

- A minimum of 4 hours of service learning will be required for this course. This is an opportunity to participate in meaningful community service to enhance academic and personal outcomes.
- Completion of the Service Learning activities must occur within the semester in which it is required (i.e. service learning activities completed during semester breaks will not meet the criteria of the course). Additionally, hours of service learning are not cumulative.
- The selected service must first be pre-approved by course faculty using the Service Learning form to identify course objectives which can be met through this experience PRIOR TO the activity.
- Please refer to Forms section for accepted Service Learning documentation form.
- During the experience you MUST have the form signed by someone who was present during the service activity.
- No credit will be given credit for these hours until you complete the outcomes portion of the form and return to your faculty. Other requirements may be included for specific courses, refer to course syllabus.
- Service Learning activities must deal with people of the community and be related to health, exercise, diet, or education.

Advisement
The faculty recognizes that successful student outcomes, retention, and satisfaction with the educational process can be influenced by advisement, mentorship, and cooperation between faculty and students. Student advisement is based on a professional relationship that is accessible, and provides specific and accurate information. Each student will be assigned a faculty advisor upon admission to upper division. The purpose of the Faculty Advisor is to offer insight, guidance and support for students throughout the upper division of nursing school. Advisors should be able to offer an objective perspective to assist students with successful progression through the program.

It is the student's responsibility to schedule an appointment with their assigned advisor at the beginning of the semester to complete an agreement/contract. Students should then meet with their assigned Faculty Advisor prior to midterm, prior to final exam and as needed. Topics of discussion and strategies during advising sessions may include: reading, test taking strategies, plan for success, stress reduction, time management and available resources.

Faculty Availability
Each faculty member will post scheduled office hours in the syllabus and office door for each semester. Students are encouraged to make appointments with faculty/advisors during their scheduled office hours. AUM email communication is encouraged to schedule appointments or for problems not requiring an appointment. Faculty/advisors will make every attempt to schedule an appointment to meet student needs. The Program Coordinators, Assistant Dean, and Dean of the College of Nursing and Health Sciences are available to meet with students as needed; appointments are encouraged to ensure adequate time is available to address student issues, concerns, and suggestions.

Communication
The primary means of communication within the School of Nursing is through AUM Email and Blackboard Courses. Students will be assigned a box on the second floor in the hall across from the elevator for distribution of items as necessary. Students should routinely check email and Blackboard daily for communication and assignments. Second floor boxes should be checked weekly at a minimum.
MISCELLANEOUS INFORMATION

FINANCIAL AID/SCHOLARSHIPS/AWARDS
Nursing students may be eligible for financial aid. Nursing students may obtain information, apply for and receive various types of financial aid administered through the AUM Office of Financial Aid. To be eligible for financial aid students must have a current Free Application for Federal Student Aid (FSFSA) on file.

School of Nursing students in pre-licensure, post-licensure, and graduate programs are eligible for several honors/awards that are intended to recognize outstanding student performance. The awards with eligibility requirements can be found on the AUM College of Nursing and Health Sciences (CONHS) website.

In addition to awards, there are a number of scholarships available through the School of Nursing. If you are currently receiving ANY scholarship funds from another source, you are not eligible for a School of Nursing scholarship. (Note: student loans are not considered scholarship funds)

To be considered for a School of Nursing scholarship, a scholarship application form must be completed which will be distributed in fall and spring semesters by the faculty chair of the Scholarships and Awards Committee. Eligibility requirements for SON scholarships can be found on the AUM CONHS website. PLEASE NOTE that it is an expectation for scholarship recipients to attend the Honors Night ceremony at the AUM SON.

CHILDREN IN SCHOOL ACTIVITIES
Children are not to be brought to class, campus labs or clinical agencies.

INCLEMENT WEATHER
Occasionally inclement weather occurs. Students need to monitor school closings on the television and radio stations. If Auburn University at Montgomery is closed, the School of Nursing will not hold classes, labs or clinicals. AUM will also send alerts through AUM Alert. To sign up for this service please visit http://www.aum.edu/about-aum/public-safety/severe-weather. AUM Alert is strongly encouraged as a method for receiving emergency warnings.

STUDENT LIFE
Nursing students are encouraged to participate in student activities at the school and university levels. Students also have the opportunity to participate in the student nurses association.

Auburn University at Montgomery Association of Student Nurses (AUMANS)
The AUM Association of Student Nurses (AUMANS) is an organization for baccalaureate nursing students. The association is a constituent of the National Student Nurses’ Association (www.nsna.org). The purpose of AUMANS is to provide nursing students practice in self-governance, advocate for student rights and rights of patients and to take collective, responsible action on vital social and political issues. The roles and responsibilities of the officers are as follows:

1. **President**
   • Set dates for ordering uniforms, meetings, etc.
   • Ensure club forms are completed each fall and submitted to Student Involvement and Leadership
   • Arrange and manage officer elections, recruitment, and delegation of responsibilities
   • Attend events as necessary
   • Discuss fundraising and organizational involvement with faculty advisors
   • Email orders drawn up by secretary
   • Ensure cords are ordered for graduation during semester preceding graduation in consultation with faculty advisors.
   • Email student accepted to AUM SON upper division of date and time to order uniforms

2. **Vice-President**
   • Attend events as necessary
   • Assume duties of president when unable to attend functions
   • Delegate when President is unable or needs assistance

3. **Secretary**
   • Records minutes for all AUMANS meetings, retaining copies in organization book and emailing to all attending members within 48 hours of meeting
   • Complete forms and emails for ordering all fleeces, nametags, stethoscopes, and student name badges after presenting to President for review

4. **Treasurer**
   • Collect money for dues and orders and provide receipt for all orders placed
   • Submit all cash, checks, and receipts to faculty advisor
   • Deposit funds in AUMANS bank account in collaboration with faculty advisor
• Return bank account deposit slip/record to faculty advisor for filing
• Provide receipts to students/faculty for orders paid in full

Nursing Honor Society - Sigma Theta Tau International (STTI) – Kappa Omega Chapter
Sigma Theta Tau is the International Honor Society of Nursing. Kappa Omega is the chapter of Auburn University at Montgomery. Students who meet eligibility criteria will be invited to apply each fall and spring semester. Faculty counselors are available to answer questions about membership.

Undergraduate students are eligible and will be invited to apply if they have:
• completed half of the nursing curriculum
• Achieved a nursing GPA of at least 3.0
• Scored in the upper 35% of the graduating class
• Demonstrated academic integrity and professional leadership potential

Other Organizations and Student Forums
At present there is no formal organization for the EARN program. Students are encouraged to discuss needs and concerns with the EARN Coordinator or the Dean of the College of Nursing and Health Sciences. Students who are licensed are encouraged to belong to the Alabama State Nurses Association (ASNA) and specialty nursing organizations.

STUDENT REPRESENTATION
Students will have representation on the AUM SON committees. One representative and one alternate from each level will be elected by their peers; junior, senior, EARN and graduate representatives. Representatives are expected to model academic and professional integrity. Representatives are expected to attend committee meetings as a liaison between students and faculty for the entire class level they represent. Representatives are obliged to communicate with the level of students they represent following the committee meetings. Student representatives are invited and encouraged to attend the following committees or send the alternate in their place:
• SON Faculty Council
• SON Curriculum Committee
• Collaborative Orientation to Support Adjunct Faculty Experiences (CO-SAFE) Committee
FORMS
ANNUAL HEALTH ASSESSMENT

Health assessment must be recorded on this form.

Immunization Form

To ensure the health and safety of our campus, immunizations against communicable diseases is extremely important. Vaccination against Measles, Mumps, Rubella (MMR), Tetanus, Diphtheria and Pertussis, and proof of negative Tuberculosis is required of all students entering Auburn Montgomery. This form must be completed and is the preferred document for proof of immunizations and TB testing.

Complete and Return to: Student Health Center
Attn: Immunizations

Address______________________________

Last First Middle

Street City/State Zip

Phone Number Cell Phone Number E-mail Address Date of Birth

REQUIRED IMMUNIZATIONS
Tuberculosis Screening (within 6 months prior to semester student is to begin at AUM.)

Date Given ___________________________(Date of reading, within 48 to 72 hours of date given) TB skin test (PPD) _______ / _______ /

Results: Positive ______ mm Negative ______ mm
If positive, you must attach a radiology report from chest X-ray and documentation of treatment.

Tetanus, Diphtheria, Pertussis Vaccine (preferred). Students without previous documentation of a TDaP vaccine should have one dose prior to entrance based on current guidelines. Other students should be current to maintain their status throughout their entire academic career.

Date of TDaP vaccine: _______/_______/_______ or Td _______/_______/_______ (within the last 5 years)

Measles, Mumps, Rubella (MMR)
Auburn Montgomery University requires that all students born after 1956 must have had 2 doses of a measles containing vaccine (MMR) prior to registration. One dose must have been after 1980. Lab antibody titers (IgG) for Measles, Mumps and Rubella are acceptable. Please attach documentation to the back of the form.

Date of First Dose _______/_______/_______ Date of Second Dose _______/_______/_______

OPTIONAL IMMUNIZATIONS (These immunizations are not required by the university but are recommended by the American College Health Association.)

Hepatitis B: _______/_______/_______ _______/_______/_______ _______/_______/_______

1st 2nd 3rd

Varicella (Chickenpox) Vaccine: _______/_______/_______ _______/_______/_______

1st 2nd

Meningococcal (meningitis) Vaccine: _______/_______/_______ _______/_______/_______

1st 2nd

I certify that the above dates and vaccinations are true.

AGREEMENT FOR THE CHEMICALLY IMPAIRED NURSING STUDENT

I

I, ____________________________, consent to obtain a comprehensive chemical dependency evaluation for the purpose of professional evaluation of chemical dependency status and determination of a treatment plan.

II

I understand and acknowledge that the admitted facts have academic consequences to include:

Participation in clinical course work will not be permitted until the terms of the treatment plan are fulfilled; a semester grade, as appropriate, of I (Incomplete), W (Withdrawal), F (Failure), or U (unsatisfactory) will be assigned for current nursing courses dependent upon factors related to grade determination as stated in the Policy Statement Regarding the Chemically Impaired Nursing Student.

III

I understand that failure to abide by the stipulations of my recommended treatment plan will result in my dismissal from the Program.

Signature of Student ____________________________ Date __________

Signature of Witness ____________________________ Date __________
AGREEMENT FOR THE CHEMICALLY IMPAIRED
LICENSED NURSING STUDENT

I

I, ____________________________, agree to contact the Alabama State Board of Nursing within three working days of    /  /  (date). I agree to provide the Dean of the School of Nursing written proof of the contact within three working days    /  /  (date).

II

I understand that if I do not contact the Alabama State Board of Nursing within the period noted above, the Dean will contact them and provide them with my impaired student status. I understand this information may result in action against me by the Alabama State Board of Nursing.

Instruction for submitting a WAIVER, SUBSTITUTION, or CONTINUATION Request to the School of Nursing

To WAIVE an Admission or Application requirement: Applicants must submit a completed petition and a detailed letter explaining the reason for the appeal (i.e. exemption for catalog year requirement).

To SUBSTITUTE a program pre-requisite: For nursing prerequisite courses completed out of state or at a private institution, applicants must submit a completed petition along with an official course description for each course being petitioned.

To SUBSTITUTE a Nursing Curriculum Course: For nursing courses completed in a previous program (i.e. research methods or an elective), students must submit a completed petition along with an official course description for each course being petitioned.

To request CONTINUATION in the program: Student must submit a completed petition and a detailed letter explaining the failure and measures taken to prevent a repeat failure.

ALL petitions and supporting documents must be submitted to the School of Nursing APG Chair no later than 12:00 pm the day before the monthly committee meeting. Forms received after this time will be reviewed at the next regularly scheduled committee meeting. Petitions may be submitted by one of the following methods:

- Email to APG Chair or Undergraduate Coordinator
- Hand deliver to the School of Nursing Administrative Assistant to the Dean in Room 101 of Moore Hall. No appointment is needed.
- Mail to the College of Nursing and Health Sciences care of APG Chair at PO Box 244023, Montgomery, AL 36124.

The following will NOT be accepted:

- Forms that are illegible. Typed forms and documents are preferred.
- Incomplete petitions.
- Faxed copies of petitions and/or supporting documentation.
- Course descriptions which are typed or handwritten. The descriptions must come from the course catalog and if printed from the website must have a web address on the paper showing where it came from.

Petitions that are denied may be appealed in person to the committee. Please contact the School of Nursing Undergraduate Program Coordinator for more information on how to submit an appeal at (334) 244-3429 or chamilt1@aum.edu.

Confidentiality Agreement

During my studies or through clinical experiences as a student at Auburn University at Montgomery School of Nursing (AUM SON), I understand that I will come into contact with various types of sensitive and personal information. This information may include, but is not limited to, information about patients, families, students, faculty, staff, donors, research, and financial and business operations. Some information is deemed confidential by law (i.e. protected health information or PHI addressed under the HIPAA) or by the school or university. Confidential information may be in any form (i.e. written, oral, electronic, overheard or observed). All confidential information is granted on a need-to-know basis. A need-to-know is defined as information access that is required in order to engage in program or leadership requirements.

I understand that I must protect all confidential information, including PHI, while a student at AUM SON. I will not share PHI with those outside the AUM SON unless they are part of my studies or educational program and have a need to know. I will not remove nor electronically send any confidential information from the agencies and facilities where I am assigned as a student except as permitted by the specifics of the agency and in accordance with the agreements with those agencies.

I understand that I must protect any sign-on codes provided to me from any agency. The sign-on and password codes are equivalent to my signature and they will not be shared with anyone. There will be no attempt to access PHI unless the information is necessary to my education or leadership at that specific time. I will be accountable for any use or misuse of the codes I am provided.

If I knowingly violate this agreement, I will be subject to failure in the related clinical/theory course and possible disenrollment from the School of Nursing. In addition, under applicable law, I may be subject to criminal or civil penalties.

I have completed the required HIPAA training and received a certificate of completion for this course.

I have read and understand the above and agree to be bound by the contents. I understand that signing this agreement and complying with its terms is a requirement for my inclusion in the AUM SON educational program and participation in clinical experiences.

School of Nursing
CLASSROOM BEHAVIOR AGREEMENT

Students are expected to demonstrate behaviors consistent with those of a professional nurse at all times. Classroom behaviors which are expected include, but are not limited to:

- Attending each class to include being punctual and remaining for entire class.
  - Attendance in nursing classes is expected. At times attendance may be part of the class grade (see course syllabi). If you will be absent please notify the faculty member who is responsible for the class before class if possible but by the end of the school day.
  - Students should arrive for class on time (seated and prepared when faculty begins class) and stay for the full time until dismissed by faculty. Students who will be late or must leave early should discuss the situation with the course faculty.

- Submitting paperwork and assignments timely.
  - Due dates are assigned for paperwork and assignments in order to allow for timely grading and feedback. Due dates will be provided in the course syllabus/calendar. It is the student’s responsibility to submit work by the due dates listed. Failure to do so may result in a zero for the assignment.

- Being prepared for each class experience.
  - It is important to be prepared for class by reading and completing assignments prior to class meetings. This allows for reinforcement, explanations, interactions, conversations, applications of information obtained during the preparation.

- Being attentive and engaging in classroom activities.
  - Please pay attention in class and focus on the current class material during class. Sleeping, talking to others, doing work for another class, checking email or Facebook, exploring the internet and other distracting tasks are not appropriate in nursing classes. The student may be dismissed from class for such behaviors.
  - Online students are expected to participate in the course as specified in the course syllabus. Online time should minimally equal face-to-face class time. (3 credit hours = 3 hours of virtual presence)

- Considering others when asking questions or making comments.
  - Monopolizing class time is unacceptable. Please make a personal appointment with the faculty member at a time other than during class.

- Turning off cell phones or placing them on vibrate.
  - Cell phones should be turned off during class time unless expecting an emergency call and then it must be on vibrate. Please make the faculty aware if you are expecting such a call and then you should leave the room to take the call if necessary.
  - Some faculty may allow use of cell phones for class activities.

- Using technology devices for classroom purposes only.
  - If a laptop or tablet is used during class please have it focused on current class material. Use of laptops/tablets in class is a privilege not a right.

- Being respectful and civil to others.
  - Disruptive behavior is not allowed and students will be asked to leave the class. Continued disruptive behavior will result in academic or disciplinary action.
  - Disrespectful and/or rude behavior towards faculty, staff, and fellow students will not be tolerated and may result in disciplinary action and possible program dismissal.
  - Students whose behavior is inappropriate in class may be asked to meet with the faculty and a written report will be placed in their personal file.

- Accepting accountability for actions.
  - Professional behavior includes accepting responsibility for one’s own actions, words, behaviors, and performance or the lack of actions, words, behaviors, and performance when necessary.

- Obtaining permission from faculty before audio or video recording or taking pictures of any portion of the class content.

- Dressing appropriately to portray a professional image of nursing and personal dignity at all times.
  - See dress code earlier in the handbook

- Maintaining standards of academic integrity for all courses, quizzes, exams, and assignments.
  - See Academic Honesty in Undergraduate Catalog

- Adhering to HIPAA guidelines when discussing patient and facility information during classroom experiences.
  - Patient and facility information shared in class is subject to the same confidentiality rules as other patient information. This includes social networking technology.

PHOTO/VIDEO/OTHER MEDIA CONSENT FORM for Students

For and in consideration of benefits to be derived from the furtherance of the educational programs of Auburn University at Montgomery, I, the undersigned Participant, hereby authorize Auburn University at Montgomery, and any agents, officers, employees, servants or students of Auburn University at Montgomery or its assignees for purposes that include, but are not limited to, the creation of training and/or other informational materials, scientific research, quality assurance, recruiting, advertising and marketing, as well as education and teaching, at Auburn University at Montgomery’s sole discretion.

I understand and agree that these audio, video, film and/or print or digital images may be used, edited, duplicated, distributed, reproduced, broadcast and/or reformatted in any form and manner without payment of fees to me or to anyone else on my behalf, forever and I hereby relinquish all right, title and interest therein to Auburn University at Montgomery.

I release Auburn University at Montgomery, and any agents, officers, employees, servants or students of Auburn University at Montgomery, Auburn University Board of Trustees and their respective agents, officers, employees and servants from any and all liability relating to the taking, reproduction, and/or use of such photographs, video images, and/or sound recordings.

I hereby certify that I am at least 18 years of age and that I am legally competent to sign this form.

Students are expected to complete a minimum of four service learning hours during select courses. This requirement helps fulfill AUMSON Program Outcomes by offering students an opportunity to be involved in service learning. Course syllabi will specify requirements for service learning experiences.

The completed log should be submitted via Blackboard in the appropriate course as specified in the syllabi instructions. For each activity, identify the curricular outcome and how the activity addressed the outcome.
